Summer Update From The Landscape Committee

Spring is gone and summer is about to begin. As we transition into summer we will be pruning our spring-flowering shrubs, planting new summer annuals and installing mulch to our flower beds and islands. We will also be giving our front entrance a beautiful new look with palm trees, flowering shrubs and annuals, and new landscape lighting!!

There are several things we can do to help our lawns, trees and shrubs transition into the heat of summer. Listed below are some helpful hits for the summer garden.

- **Watering the lawn-** Per Port Orange Public Utilities, our watering schedule is Monday, Wednesday and Saturday from 12am-8am. If you water in the evening it is an open invitation for lawn fungus. Watering after midnight and cycling to get 2 to 3 run times in the early morning creates less runoff, healthier turf and fewer bugs.
- **Prune spring-flowering shrubs** -- lilacs, forsythia, snowball bushes -- now. Take one or two of the big stems or trunks out to allow young wood to grow up and bloom in later years.
- Check and spray your roses, euonymus, apples and crabapples for mildew. This white powder-like fungus grows quickly with mild, humid nights. if you had mildew last year you will have it this year, so treat with a fungicide.
- Check for aphids and treat as needed. **Ladybugs** are nature's way to help keep aphids under control.
- Fertilize the lawn now.
- Bothered by snakes? Try **Snake-A-Way** to keep them at bay. Reapply at the end of July
- **Shade your pond**. Remember that algae grows faster with more sunlight, so the more plant foliage on the pond the less algae in the water. Fertilize all pond plants with aquatic plant fertilizers. Check pH nitrate levels, filter and fish too.
- June is **National Rose Month**. Our selection of over 150 varieties is the best in the area!
- Hose down your evergreens twice a month to prevent **spider mite** colonies from forming.

Listed below are sources for information that may help you with your specific gardening needs.

GARDENING IN CENTRAL FLORIDA - YOUR UNIVERSITY OF FLORIDA AND MASTER GARDENER CONNECTION

For information on all of your gardening, turf and tree trimming questions there is an excellent University of Florida source at http://solutionsforyourlife.ufl.edu.

The University of Florida Central Florida Gardening Calendar, a document within that site arranged by month, is at http://edis.ifas.ufl.edu/ep450.

A Volusia County Master Gardener is on duty Monday through Friday at the County Extension office in Deland to answer your gardening, turf and tree trimming questions: 386-257-6012

There is a Master Gardener clinic at the Port Orange Library every 3rd Tuesday at 2pm (unless otherwise advertised). They often have a monthly topic presentation at the beginning of the clinic, followed by a question and answer period. Bring them your gardening issues as well as samples of your diseased plants for diagnosis.

Happy Gardening!

Connie Pawela; Joyce Velba

COMMUNITY MEETINGS

Board of Directors	Architectural Review
June 14th July 12th August 9th September 13th Meetings are held at 7PM at the Port Orange City Hall 2nd floor conference room. All residents are urged to attend.	Meetings are held on the FIRST Monday of the month (except for holidays) at 5:30PM in the Port Orange Library and are open to the community. Applications received during the month are reviewed at these meetings. If you plan to attend, please notify our property manager at 386-219-2010

HOA BOARD OF DIRECTORS

President	Warren Klemm
Vice President	Dave Hampton
Secretary	Ann Colt

All HOA matters, including emergencies, maintenance needs, and complaints, should be directed to our management office: Cheryl Weber, TLC Professional Group, 5889 S Williamson Blvd Suite 1301,Port Orange, FL 32128 386-219-2010

Ana & Charles Smith	6104 Oxbow Bend Lane
Carlos & Kathy Berger	6047 Sanctuary Garden Blvd.
Martin Charles & Nancy Mohler	1340 Osprey Nest Lane
Joseph & Lauren LeDonne	1306 Crepe Myrtle Lane
Eric & Kristel Holgado	1305 Crepe Myrtle Lane

As a reminder, **The City of Port Orange** has restrictions on the use of reclaimed water.

In a **non-drought** period these city rules are in place:

Watering is allowed **3 times per week** and should be done between the hours of **midnight and 8AM**

Odd numbered addresses: **Monday, Wednesday, and Saturday**

Even numbered addresses: **Tuesday, Thursday and Saturday**

You should water only when you have maximum pressure otherwise you will not get the proper coverage of your lawn. **The City reduces the pressure daily between 8AM and 5PM** as they are refilling the tanks and producing more water.

Now is a good time to check your irrigation system to see it is running properly and that all sprinkler heads are functioning. This should include the rain gages attached to your irrigation system so that you are not watering when it is not necessary.

In this day and age, we need to be forever mindful of what is going on around us and in our neighborhood.

Be sure to remove all valuables from your car, and lock all doors, when parking in your driveway.

Keep garage doors closed. Watch out for your neighbors.

If you see anything suspicious, call the police.

SCHOOL IS OUT FOR THE YEAR. PLEASE PROTECT OUR CHILDREN

(AND ALL RESIDENTS) FROM POTENTIAL DANGER

OBEY OUR SPEED LIMIT SIGNS OF **25** MPH AND ALL **STOP** SIGNS THOUGHOUT THE COMMUNITY

THEY ARE THERE FOR EVERYONE'S PROTECTION AND IT IS THE LAW!

BEFORE making any changes to the exterior of your home, your plans MUST BE APPROVED by our architectural review committee. Applications are reviewed monthly at the ARC monthly meetings Revised forms can be downloaded from our management website: TLC-PG.com
